The image shows a grid with three rows of geometric patterns. The first row contains a 3x3 grid of squares. The top-left, top-right, and bottom-left squares are black, while the others are white. A central square has a black 'X' inside. The second row contains two identical 3x3 grids. Each has black squares at the four corners and the four midpoints of the sides. A black 'X' is drawn in the center of each grid. The third row also contains two identical 3x3 grids. Each has black squares at the four corners and the four midpoints of the sides. A central square has a black 'X' inside. The grid continues to the right and bottom with empty space for continuation.
