

Mit Hilfe des Punktebildes zur Zahlzerlegung mit Ziffern (ZR 10)

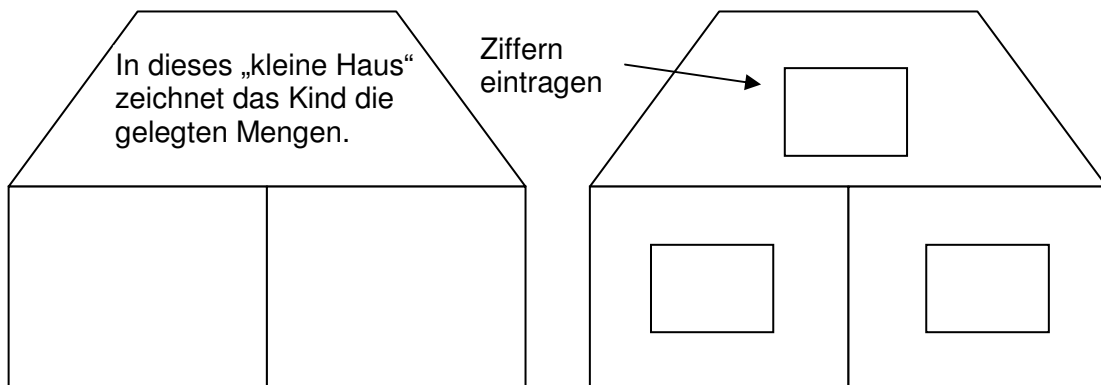

Großes Haus und kleine Häuser (Materialbedarf 20 Chips)

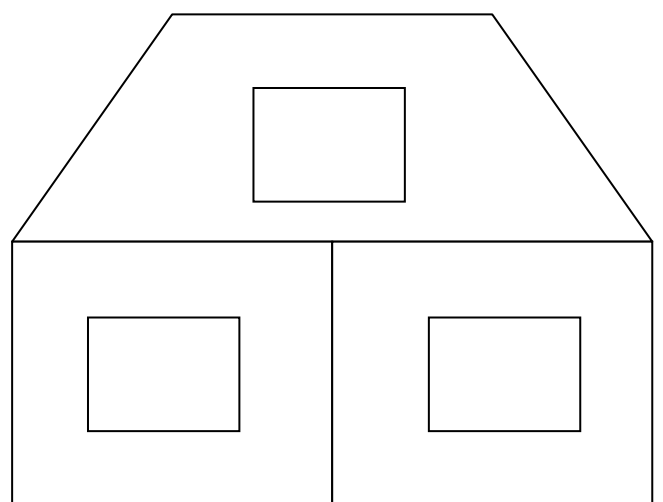

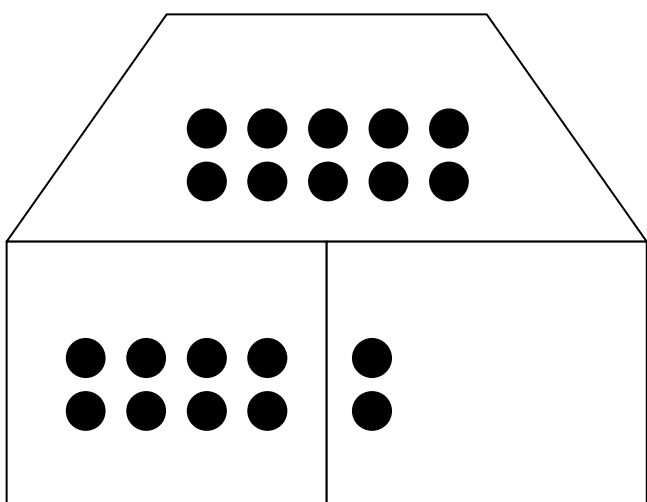

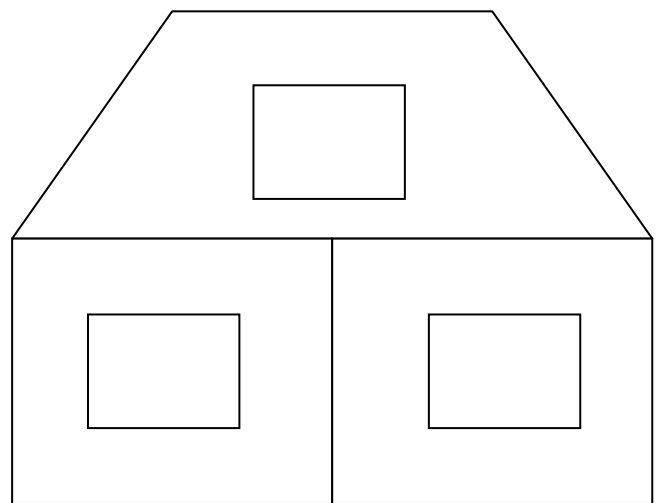

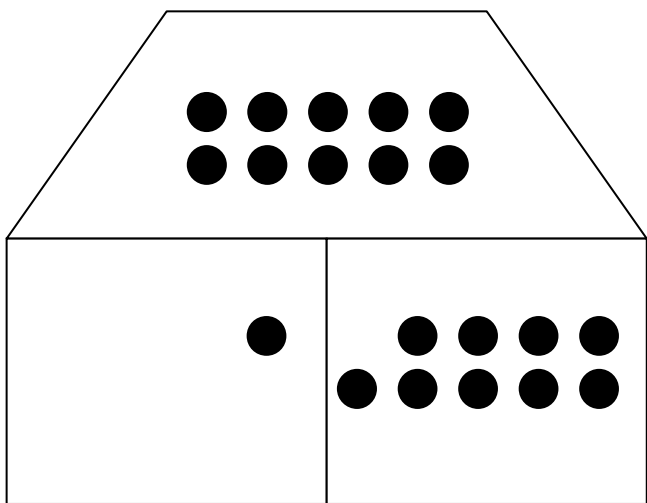

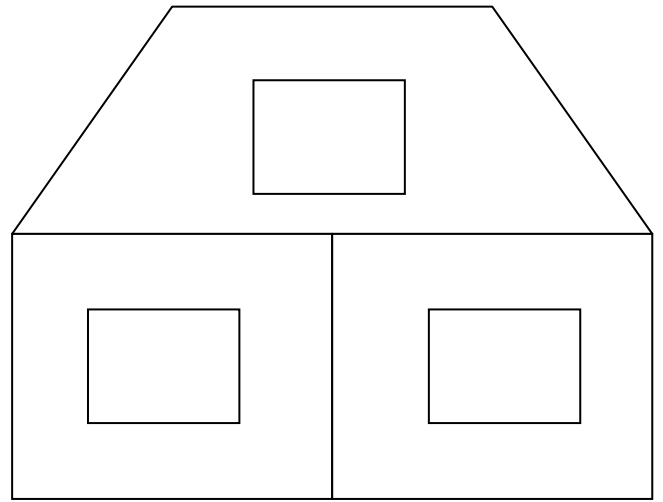

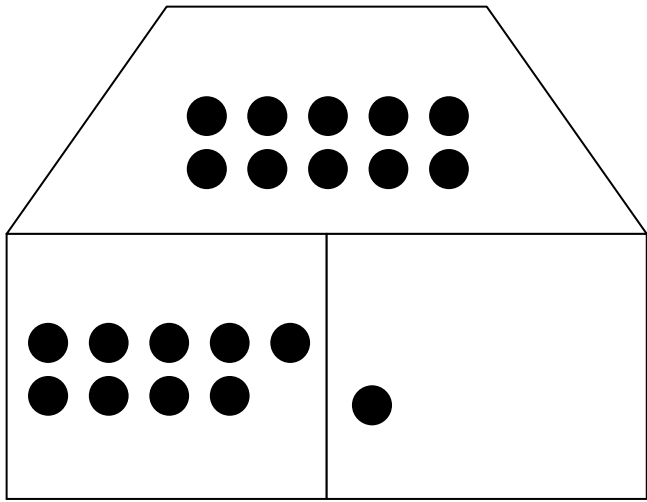

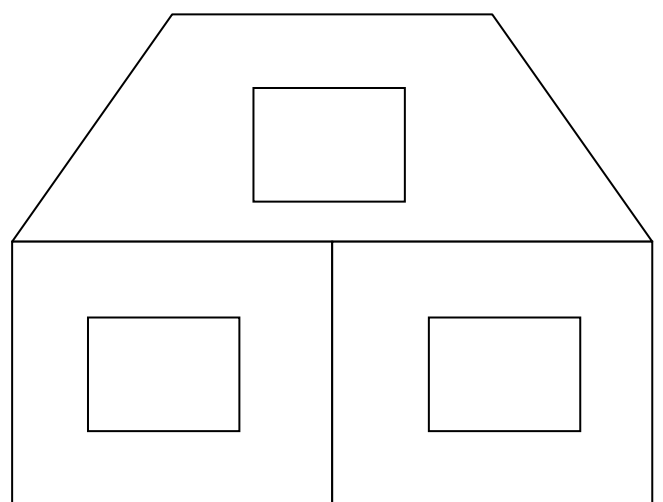

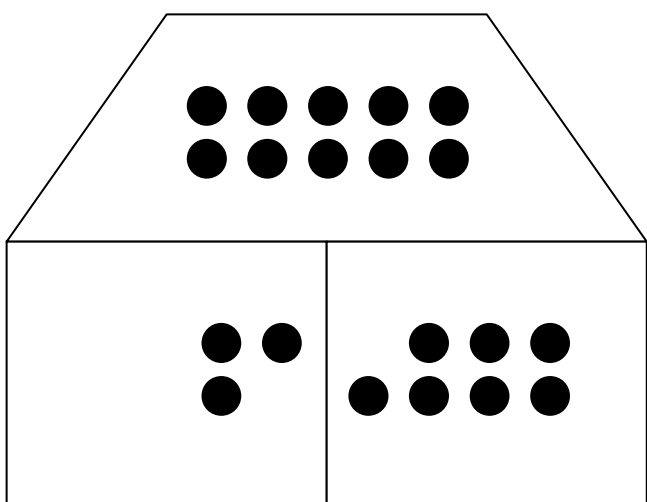

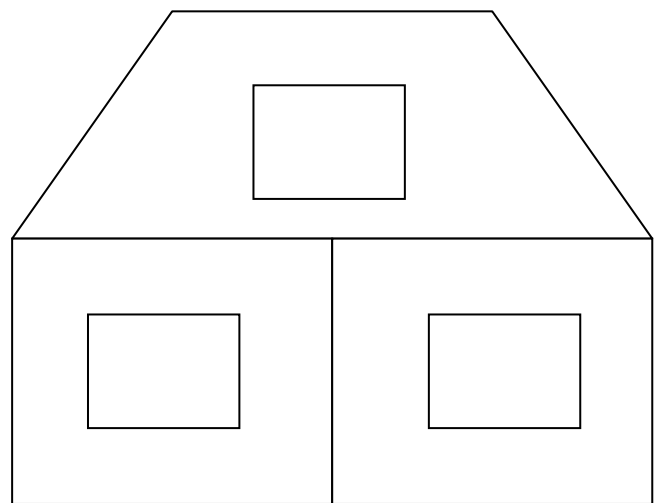

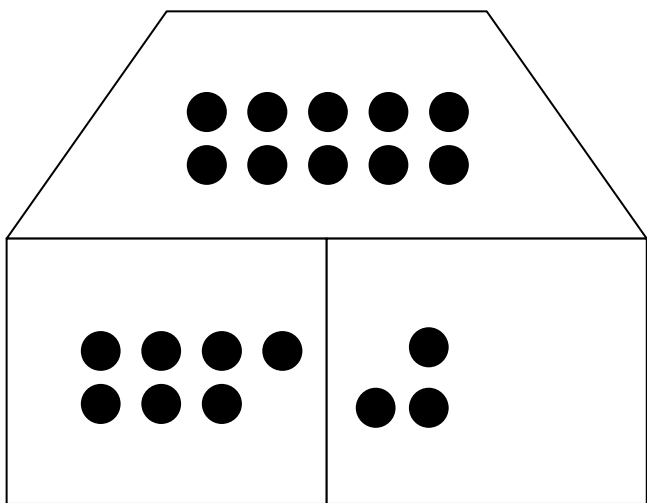

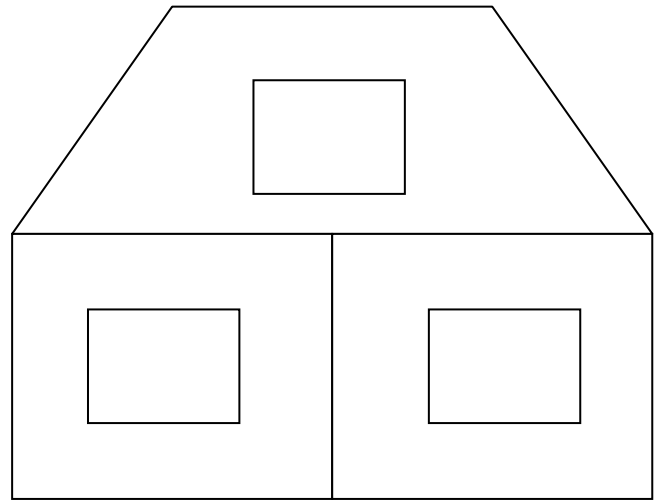

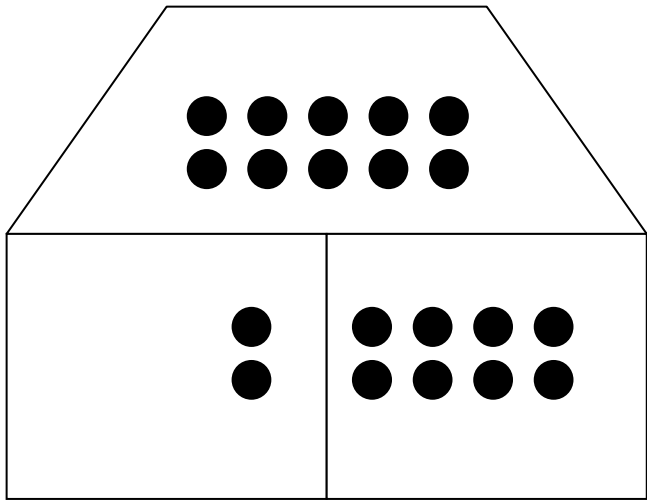

Tipp:
Alles laminieren und dann mit abwaschbarem Stift zeichnen und schreiben.

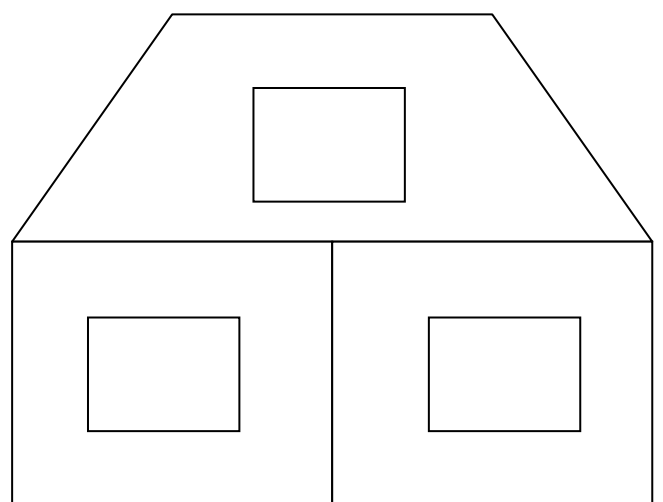

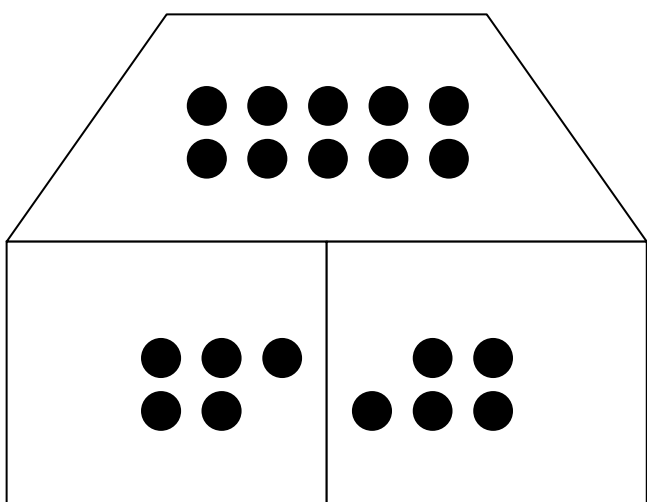

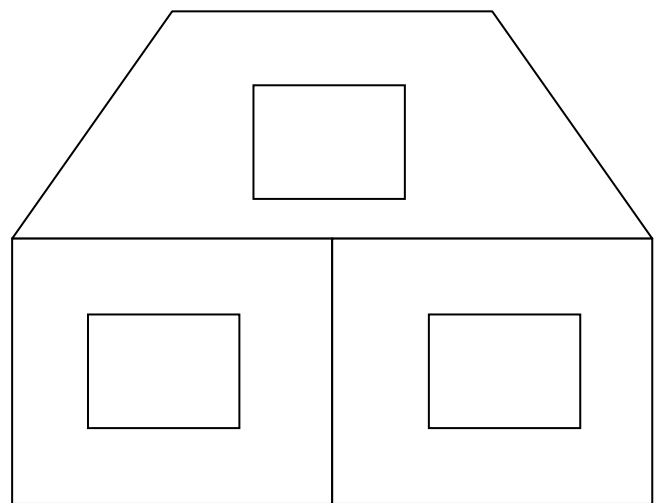

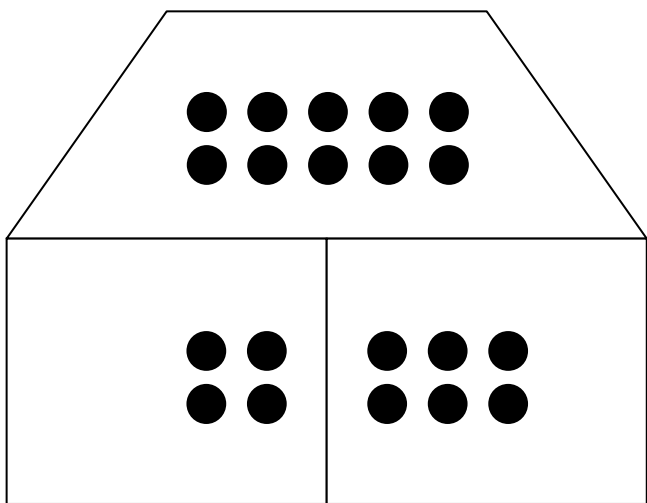

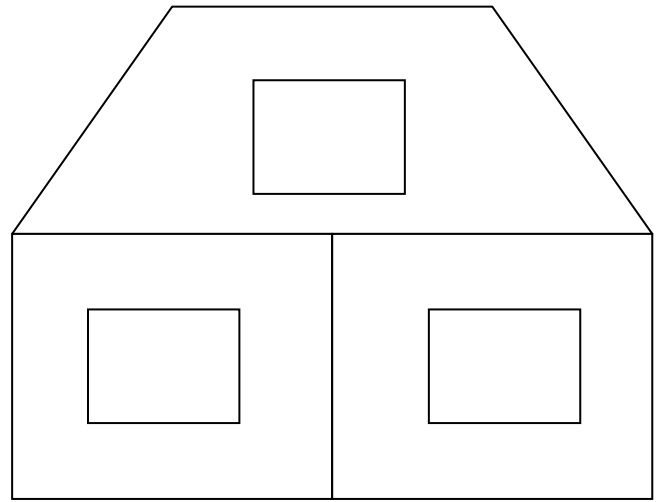

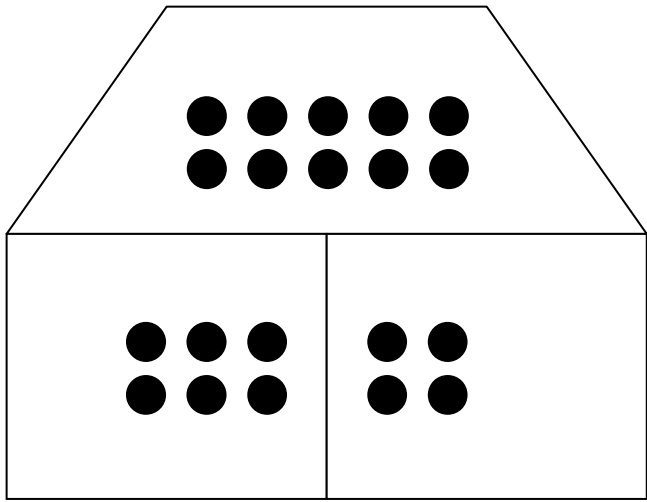

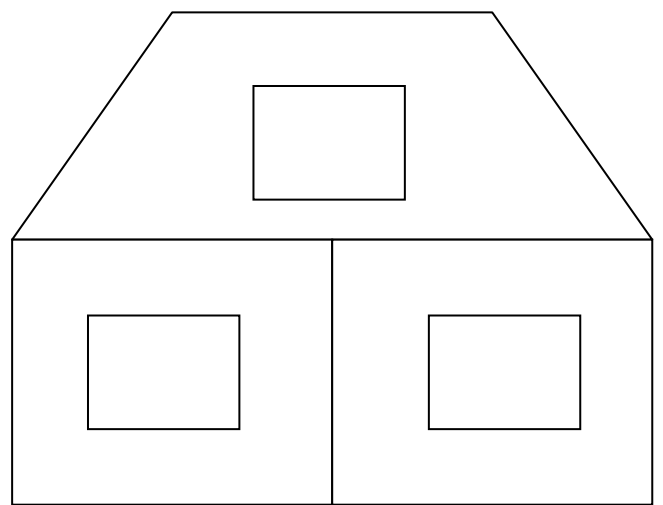

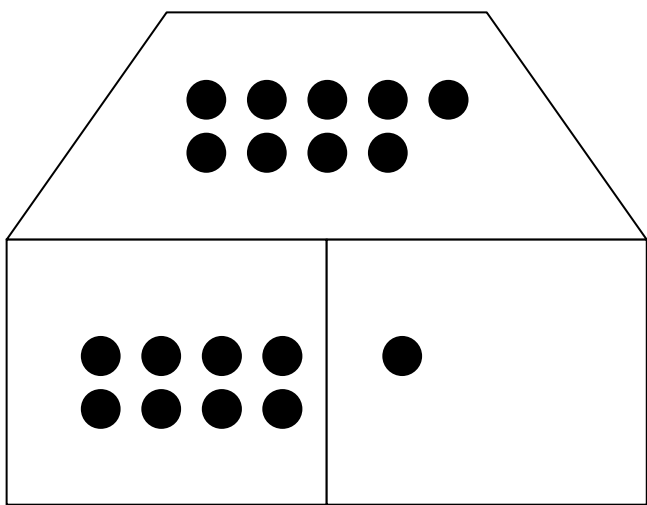

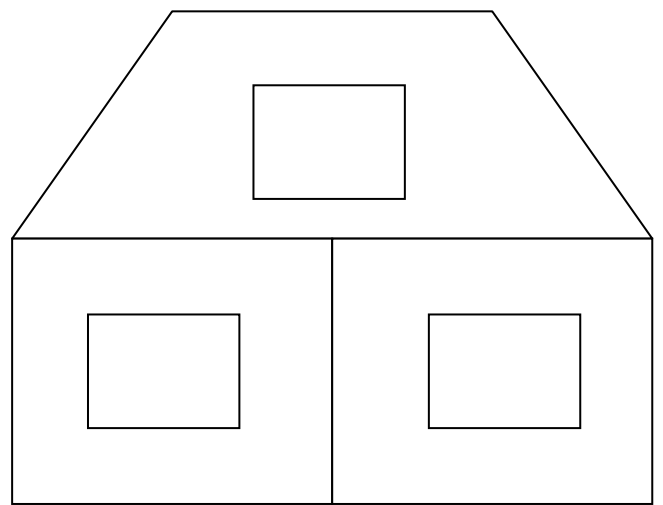

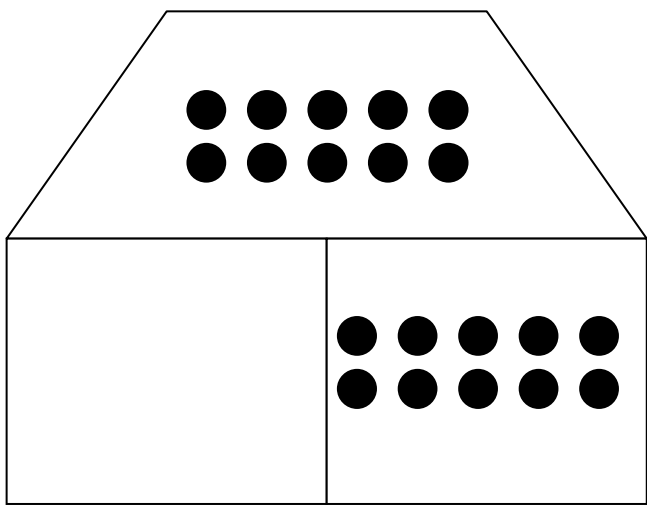

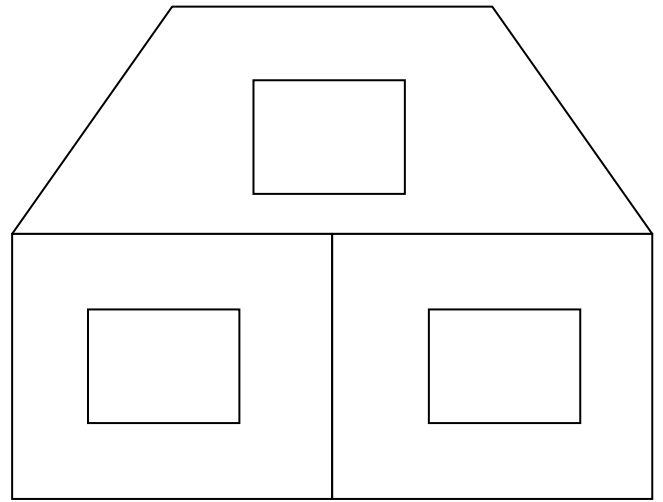

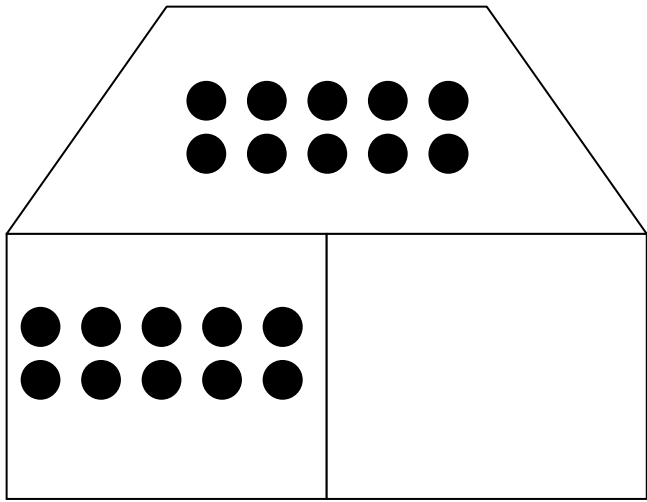

Wenn hier die „Häuserkarten“ zerschnitten und dann mit durchsichtigem Klebestreifen wieder so verbunden werden, dass sie nach hinten „zusammenklappbar“ sind, kann das Kind auch „aus dem Gedächtnis“ arbeiten.
